CAN FIX AGES

(Correspondence Associated Press)
DENVER, Colo., July 28.—Babies
born here are born on Denver time,
which is one hour ahead of the regu-
lar mountain time. Dr. William H.
Sharp, city manager of health and
charity, has ruled.

Dr. Sharp's ruling came as set-
tlement of the question as to whether
the children could legally be entered
as having been born on the tempo-
rary "summer time" or on the old
time. Exact time of a baby's birth
often is an important matter. It was
said.

MEXICO OPENS
PRESS BUREAU

(Correspondence of Associated Press)
MEXICO CITY, July 7.—Creation
here of an official bureau of infor-
mation for the foreign press was
followed, within a fortnight, by the
disappearance from the cable office
in Mexico City of the censors who,
the constitution of 1917 to the con-
trary, had revised all messages, press
messages in particular, for the last
10 years.

Bringing of the censorship to the
attention of President de la Huerta
has been the most notable feat thus
far performed by the information bu-
reau. All foreign correspondents
have been listed and identification
cards photographs attached—issued
to them.

Operated through the department
of the interior, over which Manuel
Aguirre Berlanga presided, and with
Manuel Mendez, general manager of
the national telegraph lines, as chief
censor, the censors were a factor not
to be disregarded up until May 7,
when the Carranza government eva-
cuated the capital. During the war,
charges of pro-Germanism against
Berlanga and Mendez often were
linked with intimations of the value
of the censorship to the Germans in
Mexico.

Not only were allied business in-
terests resentful and powerless, but
foreign correspondents faced a greater
inconvenience, even danger. Even
though the censor halted transmis-
sion of news stories judged "incon-
venient" for the Carranza govern-
ment, the mere filing of such a story
was sufficient ground for declaring
the correspondent a "pernicious for-
eigner."

When President de la Huerta met
all the "little ones" as Mexican of-
ficials termed journalists of the
foreign press at a luncheon on June
12, he was asked about the censor-
ship and declared he did not know
it existed. Immediately he directed
Colonel Benito Ramirez, his chief
staff to order its discontinuance.

SLAVE GIRL IS
GIVEN LIBERTY

(Correspondence of Associated Press)
SAN FRANCISCO, July 28.—
Shanghai homeward through the fog
of the San Francisco Chinatown the
other night, a Chinese youth noticed
a piece of white paper flutter through
a circle of light from a street lamp
and fell to the pavement. He picked
it up and read its message in Chinese
characters.

"I am a slave and I wish to get
away from my cruel masters. I
have been kept a prisoner six years
on the fourth floor of 1115 Stockton
street. My name is Lou Mei. I was
brought here from China when I was
a little girl. I have a friend who
says if I can send word to the man
who passes in blue clothes with a
star they will help me. I want to go
back to China. Please help me."

The young Chinese to whom the
note had fallen happened to be an
American-born Chinese. He knew it
was dangerous to interfere with the
girl's captors and to inform the po-
lice might mean death for him and
his family.

His better instincts guided him to
the hall of justice with the note. His
name will never be known to anyone
but the police.

Police Captain O'Meara, with fed-
eral officials and a representative of
a Chinese mission, raided the place
an hour after the letter was dropped
out of the window. They battered
down three doors and on the fourth
floor found Lou Mei.

The girl is held in the city prison
while federal officers investigate her
story. She may be deported, she
said she was sold as a slave in China
when she was 12 and brought to this
country afterwards. Detectives say
she was held by the Hop Sing (one
of the strongest factions of
Chinatown).

CHICAGO PROFESSOR
IS AWARDED MEDAL

(Correspondence of Associated Press)
LONDON, July 8.—Albert Abraham
Michelson, professor of physics in
the University of Chicago, has been
awarded the Albert Medal of the Roy-
al Society of Arts for 1920, with the
approval of the Duke of Connaught,
the president, for optical inventions
which have rendered possible the re-
production of accurate metric stand-
ards and provided the means of car-
rying out measurements with a min-
ute precision hitherto unobtainable.

Professor Michelson's contributions
to scientific research already have
been recognized by the award of the
Copley Medal of the Royal Society
and of the Nobel prize for physics,
both in 1907.

ARMY TO MAKE
MANY CHANGES

America's Military Establish-
ment Being Practically Re-
volutionized Now.

(Correspondence of Associated Press)
WASHINGTON, July 26.—America's
military establishment is being prac-
tically revolutionized under the terms
of the new army reorganization bill
which became effective July 1. Army
officers say the work will not be
completed for some months because
of the broad scope of the measure
passed at the last session of con-
gress to place the land forces on a
permanent peace basis.

While the regular army will con-
tain only 295,000 officers and men
scattered over the country and the
insular possessions, it will be so ar-
ranged in conjunction with the na-
tional guard and the reserve that
rapid extension of the nation's fight-
ing forces in time of emergency will
be possible.

The national guard will have about
440,000 officers and men, but the
strength of the reserve has not yet
been worked out and will depend
largely on the enlistment of draftees.

The regular army reserve as it for-
merly existed, composed of former en-
listed men furnished to the reserve
to complete their enlistment period
reduced to exist as such on July 1.
In its place there is established the
entitled reserve corps and the offi-
cers' reserve corps. The members of
the former, except veterans of the
world war, are required to enlist for
three years. Veterans of the world
war may enlist for only one year.

The officers' reserve corps is com-
posed of officers who held temporary
or reserve commissions during the
war, emergency and graduates of the
officers' training school.

To accomplish the reorganization
of the national guard and the initial
organization of the reserve, the army
has proposed to a general committee
to be composed of regular army of-
ficers and an equal num-
ber of reserve or national guard of-
ficers. In addition, 32 other commit-
tees, representing each state and ter-
ritory will arrange the national guard
organization by state, and (407)
bury some military commissions have
been appointed by the governors
and consequently this work has not
yet been put under way.

Within six months of organization
has been made public, a tentative
plan to be placed before the commit-
tee, would divide the country into
nine districts with an army corps in
each. This corps would consist of
one regular, one guard and two re-
serve divisions, so organized that in
an emergency the two reserve divi-
sions, which theoretically would be
the only ones, could be filled up with
selective service men. A full quota
of officers drawn from the officers' re-
serve corps would be available for
these divisions at all times.

The new regular army strength
provided for approximately 17,000
commissioned officers. To provide
this number about 4,000 reserve and
temporary officers have been kept in
duty and it is the plan to reach the
full officer strength by eliminating
about 7,000 such officers and em-
ploying more in the national guard.

Officers and men to be so employ-
ed will be selected by a board, known
as the Reserve Board, headed by
General Pershing and including
as other officers.

The bill provides for a system of in-
crease officers' training corps at
the various educational institutions
over the country, provide instruction
and materials for the schools and also
endorse summer camps for six
weeks for advanced training of the
student officers. Students of the
training corps may be commissioned
in the organized reserve.

The reorganizing measure further
provides that the head of the military
bureau of the war department shall
under the reorganization have juris-
diction over national guard and re-
serve affairs, shall be at national
guard officer not below the rank of
major who will receive the pay and
allowance and have the rank while
on duty of a major general in the
army.

The officers of second and third
assistant secretaries of war are also
included by the measure and their du-
ties absorbed by the assistant sec-
retary of war, who will be charged
with the procurement of all military
supplies and plans for the mobiliza-
tion of material and industrial es-
tablishments needed in time of war.

TO HUNT WHALES

(Correspondence Associated Press)
SAN FRANCISCO, July 28.—While
hunting off the Golden Gate and
other parts of the coast of central
California will soon be undertaken by
a whaling company recently or-
ganized, it was announced here. A
plant for beaching the catch and re-
fining the product is being built at
Drake's Bay, Marin county.
